Professional Experience

2022/12 – 2023/06

Junior Frontend Developer

EnterPreis IT services Maciej Preis

As a Junior Developer I was responsible for the implementation of the assigned tasks related to the front (styling, creating components and logic). I also participated in designing entire projects and combining work on the front side with the backend.

2021/12 – 2022/11

Mentoring Participant

EnterPreis IT services Maciej Preis

I was a participant of the training where I learned the specifics of a developer's work. I had the opportunity to learn the basics of programming, teamwork and problem solving process.

Projects

Znana Niania (not published yet)

Work on the frontend with using Atomic Design, REST API and cooperating with backend team.

Design system for a gaming project

Work on application design and functionality based on the provided graphic project.

Donutshop

I designed a project of online store with donuts, prepared its layout, logic and functionality. I used Vue3, Pinia, Vue Router, Tailwind, Vuelidate, i18n, etc.

Wisielec (The Hangman)

A well-known and popular game from school days in my online version. Written with Vue3 and Tailwind.
