Experience

2022/12 – 2023/06	**Junior Frontend Developer**
	EnterPreis IT services Maciej Preis
	As a Junior developer at the beginning I was responsible for the implementation of the assigned tasks related to the front (styling, creating components and logic). Later, I also participated in designing entire projects and combining work on the front side with the backend.
2021/12 – 2022/11	**Mentoring Participant**
	EnterPreis IT services Maciej Preis
	I was a participant of the training where I learned the specifics of a developer's work. I had the opportunity to learn the basics of programming, teamwork, debugging and problem solving process.

Projects

Znana Niania (not published yet)
Work on the frontend with using Atomic Design, REST API and cooperating with backend team.

Design system for a gaming project
Work on application design and functionality based on the provided graphic project.

Donutshop ⬏
I designed a project of online store with donuts, prepared its layout, logic and functionality. I used Vue3, Pinia, Vue Router, Tailwind, Vuelidate, i18n, etc.

Education

2014/10 – 2016/06	**Nicolaus Copernicus University in Toruń**
	Russian philology
	Master's degree
2011/10 – 2014/06	**Nicolaus Copernicus University in Toruń**
	Russian philology
	Bachelor's degree
