Professional Experience

EnterPreis IT services   Dec 2021 – Nov 2023
Junior Frontend Developer
After completing the mentoring training, I was employed as a Junior Developer. I was responsible for the implementation of the assigned tasks related to the front (styling, creating components and logic). I participated in designing entire projects and combining work on the front side with the backend. I was also a member of the team responsible for migrating the project to Vue 3.

Mentoring Participant
I was a participant of the one-year training where I learned the specifics of a developer's work. I had the opportunity to learn the basics of programming, teamwork and problem solving process.

Projects

Znana Niania (not published yet), *Vue 3 • Typescript • Tailwind • Pinia • Vitest*
Work on the frontend with using Atomic Design, REST API and cooperating with backend team.

Game4You, *Vue 3 • Typescript • Tailwind • Pinia • Vue Router • i18n* ↗
I created an application with online version of two popular games.

Lang4You, *Typescript • Vue 3 • Tailwind • Pinia • Vue Router • i18n* ↗
My application to measure your language proficiency level.

Wisielec (The Hangman), *Vue 3 • Typescript • Tailwind* ↗
A well-known and popular game from school days in my online version.

Donutshop, *Vue 3 • Javascript • Tailwind • Pinia • Vue Router • Vuelidate • i18n* ↗
I designed a project of online store with donuts, prepared its layout, logic and functionality.
